Senior SDET | QA Automation Engineer | Playwright Automation | Test Manager

QA SDET with 7+ years of experience specializing in Automation Frameworks and Performance Engineering. Expert in Playwright, Selenium, and API Testing, with a growing focus on AI-driven testing methodologies and AI-based test automation and orchestration resulting in measurable reductions in manual effort and execution time. Experienced in onsite collaboration in Europe, working closely with stakeholders. Experienced in Agile environment with a focus on Quality Engineering and shift-left testing. Well versed in Agile SDLC/STLC delivery, cross-functional collaboration, and stakeholder management in global environments across retail, eCommerce, and manufacturing domains.

Open to relocation and international assignments across Europe.

WORK EXPERIENCE

- Software Developer Engineer in Test, Infosys Limited**

- Integrated Playwright with AI driven agents to enable autonomous end-to-end browser interactions, reducing test generation time by 50%.
 - Designed and implemented scalable Behavior-Driven Development (BDD) UI automation frameworks using C#, SpecFlow, and Selenium, improving test maintainability and increasing test coverage by 50%
 - Led migration from Selenium to Playwright, reducing execution time and manual effort by 60% while enabling cross-browser testing with integration into CI/CD pipelines
 - Developed API automation test suites for RESTful services using Postman, CA DevTest, and Rest Assured, increasing microservices architecture and REST API testing coverage and reducing manual testing effort.

02/2019 – Present
Trivandrum, India
- Test Manager, Infosys Limited, Onsite**

- Worked as Test Manager, leading end to end testing efforts and collaborating with stakeholders onsite to align on project goals and improving delivery speed by 40% through team management and process improvement
 - Led STLC/SDLC to identify and resolve defects across multiple platforms and environments.
 - Managed test execution, sprint coordination, risk tracking, stakeholder communication, and Agile delivery reporting using Jira.

01/2023 – 05/2023
Czech Republic

EDUCATION

- BACHELOR OF COMPUTER APPLICATION, University Of Calicut**

06/2014 – 04/2018
Kerala, India

SKILLS

Test Automation and AI — Playwright, Playwright MCP, Selenium, SpecFlow, TestNG

Programming Languages — JavaScript, TypeScript, Java, C#, Python

API Testing — Postman, CA DevTest, Rest Assured

CI/CD Tools — Azure DevOps, Git, Maven

Cloud — AWS, Azure, GCP

Test Methodologies — BDD, Agile Scrum, Shift-left Testing

Project Management — Jira, Confluence

Database — MySQL

CERTIFICATES

Infosys Certified AI Tester

Infosys Certified Selenium Advanced Automation Tester

Tricentis certified Automation Specialist Level 2

Infosys Certified DevOps Professional

Infosys Certified Java Programmer

Infosys Global Agile Developer Certification

LANGUAGES

English — Native or Bilingual Proficiency

German — Elementary Proficiency

PROJECTS

Playwright End-to-End Automation Framework, *Tech Stack: Playwright, TypeScript, Azure DevOps*

- Developed scalable end-to-end automation framework using Playwright with reusable page object architecture and cross-browser support.
- Integrated automated regression execution into CI/CD pipelines, reducing execution time and manual effort.

AI-assisted Test Automation using Playwright MCP, *Tech Stack: Playwright MCP, AI-driven Agents*

- Integrated Playwright with AI-driven agents for autonomous browser interactions and AI-assisted test generation.
- Improved automation efficiency by reducing manual scripting effort and enabling intelligent workflow execution.

API Automation Framework, *Tech Stack: Rest Assured, Postman, Java*

- Developed reusable API automation framework for RESTful services validation and regression testing.
- Automated request, response, and authentication validations to improve API testing coverage and efficiency.
